Founders' Week Celebration

Pikeville College was founded as the Pikeville Collegiate Institute in the fall of 1889 by Dr. Alderson, Dr. Condit, and Dr. Henderick. Since that time, "The Higher Learning Institution for the Youth of the Mountains," has grown into a four-year college with a school of osteopathic medicine. During the week of October 18-23, the students, faculty, staff and administration members took time to remember the founders with a week-long celebration.

Men's Basketball

Bearprints have definitely been left in PC Bear history by the 1999-2000 Men's Bears Basketball team. In Randy McCoy's inaugural season with the bears, the team finished with a 15-17 record.

The bears were plagued by injuries early in the season, but they bounced back to pull out an exciting win over the 5th ranked team in the nation, the College of West Virginia. Losing only three seniors, Brian Russell, Matt Mercer, and Jason Sanson, the Bears have a promising future with Coach McCoy.

The dedicated runners, coached by John Biery, excelled in several areas of competition. The boys brought home a first place finish and the girls a second place at the Shawnee State Invitational.

With the signing of several new runners, the future for the PC Bear Cross Country Team is very promising.

Looking Toward The Future

By Robert Sparks

Whether one realizes it or not, change occurs gradually in one's life each day. Each new day presents many opportunities for growth. These changes may be physical, mental, or situational. To resist change is futile because nothing stays the same on this earth forever.

This same principle applies to college. Pikeville College recognizes this and is putting forth a tremendous effort to bring about positive changes. These changes will help the students and the community of Pikeville continue to prosper and grow. Some of the recent changes include the addition of the College's first ever football team and further renovations to the campus.
